

CAPRI

Style with charm and privacy

Elegant and streamlined, Capri is a classic awning designed to bring style to your windows with discretion and simplicity. Its slim lines are essential, but still sufficient to assure the incredible strength of its structure, strong enough to allow up to 20' widths.

Ideal to protect immediate indoor areas from overheating and UV rays, Capri can operate either manually or electrically and is offered in white, brown or gray powder coated finished aluminum. Outfit your Capri in one of hundreds of brilliant color fabrics.
